From the days of Richard Sears to now—

90 Years of Service to the American Consumer

It all began in 1886, with a jewelry company's error. A Chicago company had shipped some watches to a jeweler in Redwood Falls, Minnesota. The jeweler didn't want them. But the railroad station agent in nearby North Redwood, with spare time and a keen eye for a chance to do some business, did. He bought the watches, and sold them to other station agents at a handsome profit.

The agent's name was Richard W. Sears. And the R. W. Sears Watch Company was the beginning of one of America's greatest business success stories. As his business grew, some of his customers needed their watches repaired. So in 1887, Sears hired a watch repairman from Indiana named Alvah C. Roebuck.

In 1893, the firm, now in Chicago, became Sears, Roebuck and Co. Originally, it offered only watches and other jewelry. The first catalog, issued in 1888, featured no other products. But Richard Sears, once called a "showman of the calibre of P.T. Barnum," recognized the tremendous potential market for general merchandise at reasonable prices. In those days of difficult transportation, farmers were rarely able to buy anywhere but at the small (and high-priced) rural stores near them.

But, with the growth of railroads and later the introduction of parcel post and rural free delivery, Sears was able to offer substantial savings to the farmers. For the first time, in 1894, the Sears catalog offered almost everything: from men's clothing and musical instruments to sewing machines and firearms. This first "complete" catalog of 322 pages is the one you are now about to enjoy.

Richard Sears also recognized that customers of that day felt it was risky to order and pay for merchandise before it had been examined. So, as an assurance of the company's integrity, Sears established the now-famous policy of "Satisfaction Guaranteed

or Your Money Back." This policy has been expanded to include not only the customer's opportunity to examine his purchase, but to use it before making up his mind. For 90 years Sears has continued its promise to customers of "Satisfaction Guaranteed or Your Money Back."

Another innovative Sears approach was the establishment of a testing laboratory. It was started in 1911 to test food products sold by Sears. The "food" laboratory soon expanded to become the Sears Merchandise and Testing Laboratory—the "watchdog of the catalog." To Sears customers it meant a new approach to mail order selling: he or she no longer had to guess about quality. Customers could rely on testing—and can to this day.

Sears expansion was immediate and continuous. In 1906 the Company built on a 40-acre site, a $5 million Chicago mail order plant and office which was then the world's largest business building, and is still in use. In the same year a Dallas branch office was opened; six years later it blossomed into a new mail order plant. Today Sears operates a total of twelve Catalog Merchandise Distribution Centers. Their location throughout the country made possible the savings of lower freight rates, faster delivery, and reduced merchandise damage.

When General Robert E. Wood joined Sears in 1924, he recognized a new American era. New and better automobiles and roads had released the farmer from his isolation. Now he could drive into town to shop—even to the big city. General Wood opened Sears first retail store adjoining the Chicago mail order plant. An immediate success, it was followed by seven more retail stores in 1925. And by 1927, there were 27 Sears retail stores.

Since 1906 Sears, Roebuck and Co. has been a publicly owned corporation listed on the N.Y. Stock Exchange. It operates 3600 stores throughout the United States with over 400,000 employees.

Sears is proud of its beginnings and of the many services and innovations it has been able to bring to American consumers. This 1894 Sears catalog is just one chapter from our past—and we know you'll find it interesting and enjoyable reading.

Our Combined Catalogue.

PRESERVE THIS BOOK. ●●●●● ●●●●● IT'S A MONEY SAVER.

TO OUR PATRONS:

Again we come to you, and we honestly believe, with the grandest collection of Bargains ever printed in one volume. **This is a Book of Bargains; a Money Saver for Everyone.** It is not our aim to include in this book and confuse you with a great variety of goods on which we can save you no money, but it has been our aim to include goods on which you can make a great saving. By a comparison of our prices with those of any thoroughly reliable house, you will see at once **you can save money** on everything you buy from us. It would be useless for us to include in this book a lot of goods at prices which with transportation charges added would cost you as much as you could buy the same article for in your local market. **We have studied to avoid this** by offering you only such goods as we are in a position to buy from the manufacturers direct and in such quantities as enables us to deliver them to you for as little or less money than they would cost your local dealer.

OUR OLD FRIENDS AND PATRONS

Will remember us as originally **an Exclusive Watch House, and later, Watches, Diamonds, Jewelry and Silverware,** and we believe we can modestly claim what is universally conceded that we honestly earned and have since maintained the reputation of being **The LARGEST WATCH and JEWELRY HOUSE in the WORLD** selling goods direct to the consumer. **Our daily average sales of Watches have been over 400, Jewelry and Silverware in proportion,** while in the **Diamond** business our sales have almost from the very start **exceeded that of any firm in America** selling direct to the consumer.

WE HAVE ADDED MANY NEW LINES

And we shall hope for the same support in our new departure that has been so liberally accorded us in the past. **We have studied** to carefully and honestly represent every article so that when it reaches you, its appearance will almost universally be **better** than the description we give.

ABOUT OUR RELIABILITY.

We are authorized and incorporated under the laws of the State of Minnesota, with a cash capital paid in full of **$75,000.00.** We refer you to The Union National Bank of Minneapolis, and you are at liberty, if you choose, to send your money to them with instructions not to turn it over to us unless they know us to be perfectly reliable. We refer to any Express Company doing business in Minneapolis or Chicago—Adams, American, United States, Great Northern or Northern Pacific, or you can very likely find people in your own locality who know of us. **Ask your nearest Express Agent** about us; most any Express Agent can tell you about us. **Every Express Agent** in the United States knows of our reputation, as they have delivered our goods, and must, in most cases, know what our customers think of us.

WHERE WE SELL GOODS.

Almost Everywhere! There isn't a town in the Union where we haven't sold goods, our goods go into every city, town and hamlet in every state, as well as most every country on the globe. **Don't think** you live too far away. Our biggest trade is in Pennsylvania; 2d, New York; 3d, Illinois; 4th, Ohio, and so on, according to the population of the several states. **Distance cuts no figure. We can serve you anywhere, anytime. Freight rates are low. Express rates are low.** We have **Special facilities for Shipping** and in many cases **Special rates.**

WE AIM TO MAKE CUSTOMERS

Of Everyone by treating every customer in such a manner as to insure their always remaining a customer. **WE CAN'T AFFORD TO LOSE A CUSTOMER,** and by instructing our employes to treat every customer at a distance exactly as they would like to be treated were they in a customer's place, and rigidly enforcing this rule, we have grown into one of the first institutions of the country and our patrons far and near are talking in our favor and thus adding new customers daily.

WHO WE SELL.

We sell the consumer, by that we mean we deal direct with the party who buys for his own use, thus saving you the middle man's profit. **Anyone can buy from us; there is no restriction. Our terms and conditions are the most liberal ever offered. We make it very easy to buy of us.**

Read our Terms, Conditions, etc., on next page. Very truly,

HOW WE SELL WATCHES!

THE FACT HAS BECOME GENERALLY KNOWN, particularly among watch dealers, that we sell more watches than all other watch catalogue concerns combined and the question comes from the tongue of every competitor How do they do it? Not in New York or Chicago, but away up in the Northwest, putting out watches by the thousands—How in the world do they do it? they ask.

Friends, there is no secret to it! We are not averse to telling how it is done In fact, we are rather proud of an opportunity of telling now we do it. (Funny how competitors wonder when it is so simple) True we are located in the Northwest—what matters? This price list reaches you for one cent and the express company will carry a watch from here to any point in the Union for 25 cents (just as cheap as from New York or Chicago). So location makes no difference.

THE SECRET OF OUR SUCCESS (if they choose to call it a secret) is, **MAKE A WATCH SELL A WATCH.** That is, make every watch give such satisfaction that it will cause the party or his friend to order another watch. With that motto continually in mind you can't help but build up a big business. True, it can't be built up in a minute, but keep everlastingly at it, and the business will grow. That's the way we built up this big business, simply, **MAKE A WATCH SELL A WATCH.**

It's like rolling a snow-ball, if you ever tried it—very small at first—don't seem to grow much for a while, yet by-and-by it begins to get larger and larger, until finally it assumes a monstrous size. Many people want to create a monster size at once, but it can't be done. You must start a small ball rolling for it, keep constantly pushing at it and it will in time assume proportions that will even astonish its maker. It will grow so large it will clean up everything in front of it. When the ball of trade draws one order from a town, that order causes another to soon follow, and another and another, and shortly scarcely a watch is sent to that town except from us. Hundreds of thousands of customers are on our books now, thousands being added monthly. Join the procession and you will never break the ranks.

SEARS, ROEBUCK & CO., - **CHICAGO, ILL., And MINNEAPOLIS, MINN.**

YOU CAN MAKE MONEY

Every month selling our watches. Many are selling our watches and writing us from every state in the Union that they make more money than at anything else they ever did. Railroad and express agents write us that their profits from our watches amount to more than their salaries. Merchants write that at our incomparably low prices they make more selling our watches than on all other goods they handle. **But it isn't confined to Jewelers, Merchants and Railroad Men.** Traveling men selling goods of various kinds on the road, buy our watches and carry them as a side line and sell them from town to town. **Peddlers, Clerks, Farmers, Traders, Laboring Men;** YES, ALL CLASSES SELL OUR WATCHES, and from all classes in all parts comes daily by the hundreds the one universal report: —— **Grandest Success Ever Attained.**

BEST watches in the market.
TERMS most liberal ever offered.
PRICES far the lowest in the market.
TREATMENT fair, honorable and just.

You need not take our word alone, for further along in this price list will be found testimonials taken from a few of the many **THOUSANDS WE HAVE RECEIVED.** They have (on account of the satisfactory treatment received) of their own free will taken this way of expressing themselves.

About the Retail Dealers!

No Retail Store Can Make Low Prices!

The goods cost them **too much**; their profits must be **too large.** **You can't afford** to buy a watch, diamond or chain at a retail store—**ask their price! Look at our Catalogue! Decide for YOURSELF. WHEN YOU** pay a retail store **$25.00** for a watch, at least **$5.00** goes to the retail dealer, **$5.00** to the jobber, **$2.00** to the manufacturer, and you have a watch that costs **$13.00** to make. Add 5 per cent to **$13.00 MAKES $13.65**; and we guarantee any watch we offer at **$13.65** will compare with any watch you can buy at retail for **$25.00.** We merely offer this as an example. The same proportion holds good with watches, diamonds and jewelry of all grades.

Why Can't Retail Dealers Sell Cheap?

You ask. **We will tell you.** The average retail watch dealers are not wealthy, on the contrary, as a rule they are poor, for this reason, they learn their trade as watch-makers and start business by repairing watches and jewelry, putting in what little stock of watches and jewelry their limited capital and credit will permit. The wholesale house realizes there is perhaps more risk of loss in selling the average retail jeweler on time than any other kind of business, and to make good the losses they every year sustain, a large percentage is added to cover the losses, which every retail dealer pays when he buys his goods; then the retail dealer in settling with the jobber generally gives his note which the wholesale house sells or discounts at the bank; a certain percentage is added to the goods to pay this discount. Further, in order that the wholesale house may extend credit to the retail dealer the jobber must buy of the manufacturer on credit, thus compelling the manufacturer to add a certain percentage for loss, discounts, etc. **All this makes the goods cost. BUT THAT ISN'T THE WORST.** The retail dealer must get very large profits on his already high priced goods. **WHY?** Because he sells very little, one or two watches a day, perhaps not that—some places perhaps two or three watches a week. His expenses are large, rent, fuel, taxes, interest, perhaps help to pay, and yet he feels he is a business man and must live as high as any one and all his profit must come out of his few sales and little work. **What's the result:** You pay him from 50 to 200 per cent profit on everything you buy. **Do you get value received? NO!!**

WE CHANGE ALL THIS!

We buy direct from the largest manufacturers for **SPOT CASH.** We own stock in several factories. We sell for **SPOT CASH,** no bad debts, no discounts to pay, no interest or traveling salesmen to pay. We don't depend on selling two or three watches in a week or day to get our profit. Last year we got our profit out of (80,000) eighty thousand watches sold; **Daily average 255.** This year we are trying for a **daily average of five hundred** (500) watches **NOW REASON!** One cent on each watch sold will pay our rent, fifteen cents will pay all our running expenses, ten cents will pay for advertising. Thus: twenty-six cents on each watch will pay all expenses of every kind; while it would not pay for the oil the retail dealer burns to keep his store lighted.

We want to sell **150,000** watches this year, allow twenty-five cents each on an average for our net profit and we will make a net profit this year of **$37,500.00** and still sell you watches at one-half the prices charged by retail dealers.

YES, at 10 to 50 per cent less than they cost the retailer.

☞**Again we Ask, Where are our Competitors?** THE VERY SAME watch you hear so much about in many papers, *fake* circulars, *fake* catalogues, etc., advertised as finest gold plated, or gold filled, cannot be told from a $100.00 solid gold watch and all such trash. Read this catalogue and you will not be fooled. *We will tell you all about it.*

☞**This is the Honest Description.** This case is BRASS, *electro gold plated,* imitation hand engraved, will not hold its color long and is not guaranteed, hunting case, stem-wind and stem-set, fitted with an imported imitation American movement not guaranteed as a timekeeper.

YOUR CHOICE FOR $3.95!

CASH IN FULL MUST accompany ALL ORDERS FOR THESE WATCHES. We don't Guarantee them.

No. 8027.

Order by Number. Open Face Only.

READ CAREFULLY! We don't like to sell this grade of goods, for the reason heretofore we never have handled anything of a cheaper quality than genuine, 20 year gold filled cases, but we have had so much call for a **cheap trading watch** that we have finally been persuaded to add them to our catalogue. While many houses advertise them in glowing colors as **fine gold filled, extra quality gold plated,** warranted to wear 20 years, equal to solid gold, and many other such misleading representations, **we do not.**

The Truth is these cases are brass, electro gold plated, imitation hand engraved, stem-wind and stem-set, and while we do not guarantee these watches to wear **we do guarantee them in every way equal** to watches that are being advertised by many so-called large watch houses as **fine gold filled** and at prices ranging from $5.00 to $10.00.

These Movements are stem-wind and stem-set, and while not guaranteed as time-keepers, many of them will keep excellent time, and for trading purposes these watches are often very desirable as they present a very showy appearance and yet the price is very low. **In fact, these watches will always appear far better** than our representation would lead you to believe, for the reason we prefer to sell nothing cheaper **than a good gold filled case,** one **that we know will give satisfaction, a watch we can guarantee,** and one we will be pleased to send C. O. D. Subject to Examination. So, in our eagerness to sell a better watch, we do not do justice to these unguaranteed watches in our description.

WE ARE PLAIN.

All guaranteed watches, unless otherwise specified, will be sent to anyone, anywhere,

C. O. D. Subject to Examination.

No Money in Advance. - - -

BUT THESE WATCHES,

Like all Watches we do not Guarantee,

Gents.—I received the watch a few days since. I am surprised that you can sell such a watch for so small a sum of money. I may in a few days order another watch.

Yours truly, R. L. SWETT.

PAYNESVILLE, KENTUCKY.

Gents.—I received the watch yesterday, and was very well pleased with it. I can recommend you to all my friends who want a good watch at a fair price. I wish you great success.

Yours truly, JOHN R. AKERS.

MIDDLETON, MICHIGAN.

Gents.—The watch I ordered from you came to me in good shape, and must say I am more than astonished at the watch you put up for the money. As I live near the railroad office I have a chance to compare time every day, and so far it has kept the best of time. What more could I wish? Have shown it to several of my friends and all guess it from $10 to $15 more than it cost me.

With thanks, G. P. STEADMAN.

About our Eight Departments

Watches, Diamonds and Chains have been our entire line, but now from our eight separate departments **We Handle Everything** in the jewelry line, including WATCHES, DIAMONDS, CHAINS, RINGS, JEWELRY, SILVERWARE, CLOCKS, OPTICAL GOODS, Etc., Etc.

You may ask, When we sold $0,000 annually, why did we confine ourselves to **watches** alone, and later **watches and diamonds**, and still later **watches, diamonds and chains**, why didn't we handle a full line. You may say most every other catalogue house advertises a full line of jewelry. **We will answer:**

OUR REPUTATION IS AT STAKE!

We have always enjoyed and mean to maintain our reputation as the **CHEAPEST WATCH HOUSE ON EARTH.** Few people can comprehend what is necessary to keep our prices below all others. We must be able to buy in very large quantities **FOR CASH.** We must contract with factories by the year, often taking their entire product. To handle such immense quantities it requires endless preparation in order to move the goods. In adding our **Diamond Department** we realized in order to **maintain our reputation,** (the lowest prices on earth) we had many things to overcome, many arrangements to make; the same with our **Chain Department** and every department we have added from time to time, and now we can honestly say **"WE ARE HEADQUARTERS"** for everything in the jewelry line. **Headquarters** because we can sell you a watch, diamond, chain or any piece of jewelry or silverware for less money than you can possibly buy it elsewhere. **WE POSITIVELY GUARANTEE** every article in our catalogue is from *20 per cent to 100 per cent cheaper* for same quality than in any other catalogue published in America.

This is a catalogue of bargains. We never have, and if possible, never shall offer a single article for sale until **we know** the price is below all others. **Everything** in this catalogue is a bargain; something on which we have special advantage, and we give you the benefit of our advantage.

Our Price, $5.25--Regular Retail Price, $10.00

No. 6031.

A Boy's Watch, yet large enough and good enough for any man to own

WHAT WE DO! Warrant every watch we sell! Pay all express charges! Send to anyone C. O. D. subject to examination! Require no money in advance! *Can anyone ask more?*

WHO BUY WATCHES!

We make no Distinction but sell to the JEWELRY STORE, MERCHANT, PEDDLER, MECHANIC, FARMER AND LABORER AS WELL, *all at the same price* and *all on the same terms*, viz: By express C. O. D., subject to examination **(all express charges prepaid by us).**
The Jeweler, Merchant and Peddler buy and sell again as a business.
The Farmer or Laborer buys a watch for his own use or to trade or sell, and we often find that although they may commence by buying **ONE** of our cheapest watches, in time they make our best customers, and in some cases finally engage in the watch business exclusively.

Some of our very best customers are started in this manner. They send for a watch for their own use. The day they get it their friends see it and are delighted with its appearance; and, say it is one of our gold filled watches costing about $12.00, some one **OFFERS YOU $20.00 CASH** for it, and, knowing you can get another one just like it from us in a very few days for $12.00, you sell it, **CLEAR $8.00** and immediately you **send for another and another,** selling them as fast as you get them, until finally you get them **IN DOZEN LOTS.**

Now you may only have a few dollars, possibly barely enough to buy one of our cheapest watches, IF SO, that is quite enough; it may lead in a very short time to your selling a dozen watches each month and even more. So you see the **POOREST** customers often become the **BEST** and **EVERYBODY BUYS WATCHES.**

IMPORTANT! **Do not order unless in good faith.**

We take it for granted when we receive your order that it is in good faith and that you want the watch, and if found upon examination at the express office to be as represented, you will immediately take it and pay the express agent our price. **Now,** if you do not mean to do this **we don't want your order;** (no gentleman will *impose* upon *such liberality* as we give.)

DON T WRITE FOR ANY SPECIAL PRICES ON ANYTHING.

Our prices and terms are alike to one and all, and under **no circumstances** will we **deviate from them.**

WHAT THE PEOPLE SAY!

ST. PAUL, MINNESOTA.

Gents.—Your manner of doing business and the magnificent bargains you actually give are so commendable in any house and so different from the course of some firms that I have taken upon myself the privilege of bearing testimony to your fairness and business integrity. I can only account for your giving so much for the money upon the fact that you purchase in such large quantities. I feel to assure anybody dealing, or who contemplates dealing with you, that they will not only get *full value* but in fact *a bargain!* This letter is not written for publication, but you may use it thus if you wish. Respectfully yours,

G. E. MCALLISTER,
Mem. Minn. Legislature, 31st Dist.

TOLEDO, OHIO.

Gents.—I received my watch, and simply to say that I am well pleased, will not describe how well satisfied I am. I will require a gold watch for my wife, before the holidays, and I will not forget your firm when I order. Wishing you success for your fair dealing.

Very truly, THOS. H. PRICE.

LAREDO, TEXAS.

Gents.—I received the watch you sent me and am very much pleased with it. The jewelers say it is all it is represented to be and even more. Now gentlemen, if I can be of any service to you, I will only be to glad to do what I can in helping you in any way.

Yours truly, R. C. JARVIS.

NORWOOD, GEORGIA.

Gents.—Watch received and am well pleased. I had it tested with nitric acid and it proved to be gold. This day I express to you $18.50, your price for it. May order more in the near future. Yours respectfully, W. H. HARRIS.

LA CROSSE, KANSAS.

Gents.—Goods received all right. Am well pleased with them. It is a great bargain. You can recommend them to anybody as they are first-class. Hoping to again order some goods in the near future. I am, Yours respectfully, CHAS. W. TALBOTT.

We Are General Selling Agents for HAMPDEN MOVEMENTS and DUEBER CASES and we honestly believe they are the best movements and cases in the market. There are more Hampden movements in use on railroads than any other make made, they are being adopted by the railroads generally where it is necessary to have the variation in time reduced to a few seconds per month. **There is no Question** but the **Dueber is the Best Gold Filled Case Made,** more pure gold used in its construction, better made and better finished than any other case made.

We Have Many Advantages in handling these goods. **As General Selling Agents** we make a lower price than any other concern in existance, but owing to our restrictions as Selling Agents on these goods **we are compelled** to require **$1.00** in advance with every order as a guarantee before we can ship C. What the People Say!

CALDWELL, KANSAS.

Gents.—I received your watch about ten days ago. Has given perfect satisfaction. Was much better than I expected. Will gladly recommend your firm to any one wanting to buy a good watch for the same money they would have to pay for an inferior one. Please send me at once, by Adams Express, lady's solid gold watch No. 5021 in catalogue.

Yours very truly, E. O. LEVERBY.

ALLENDALE, ILLINOIS.

Gents.—The watch which I ordered of you came to me in good order, and I can only say that I am highly pleased with it. I sold it in a few days, and thus far it has given complete satisfaction. I shall favor you with another order in the near future, for I believe what you say, in regard to your watches, to be reliable. Yours, &c., DR. F. S. GRAY.

HILLS, MINNESOTA.

Gents.—Your card received this A. M., and am quite surprised. As regards to the watch sent me about three weeks ago I took from the office same day as it came, and allow me to say right here, that I am more than satisfied with it, and wonder how you could afford to give such goods for so little money. I have repeatedly refused three times what it cost me, fearing I could not duplicate it. Very respectfully yours, CHAS. P. BISSELL, M. D.

KANOPOLIS, KANSAS.

Gents.—I have compared the Nos. 5041 and 5056 watches purchased of you with others selling at from $25.00 to $30.00, and find them equal, and in fact better, in many respects. I am well pleased and will use every occasion to recommend your watches to my friends.

I remain respectfully, etc., FRANK WATTS,
Sec'y Watts & Co. Loan and Investment Association.

SANTA ANNA, TEXAS.

Gents.—Your watch has been received, and am perfectly satisfied with it, believing it to be just what is represented. It is a beauty and as a time-keeper it is unsurpassed, having given it a thorough test. Would recommend it to any body. Yours truly, T. W. HUNTER,
Pub. Santa Anna *News.*

FEW PEOPLE have ever seen such a watch as this—such a work of art, no words or description can give you any idea of its beauty. We don't suppose there are ten jewelry stores in the Union, outside of the larger cities, that carry in stock such a beautiful case. They can only be found in the very finest jewelry stores in the largest cities. No one could imagine such a watch could possibly be gotten up for less than $100.00 and very few have any idea such a beautiful watch is being made at all. **It's the Best Gold Filled Case Possible to Make,** in the first place, then it is most beautifully ornamented and decorated with different colors and designs of raised gold work so that it most certainly is a thing of beauty, and to the owner must be **A JOY FOREVER.**

WHAT THE PEOPLE SAY!

ENOREE, SOUTH CAROLINA.

Gents.—The gold watch, No. 5061, arrived in good order and is satisfactory. The lady says she would not take $35.00 for it. The Paillard and Dueber both are in Express office and will be taken by the 12th or 15th, as that is pay day at the factory, aad the parties for whom I sent will have the money. Don't be uneasy about them. I do not send for a watch from curiosity, but always for a bona fide order. Money will be forthcoming in a very few day.

Respectfully, DR. H. TOLAND.

NEWPORT, GILES COUNTY, VIRGINIA.

Gents.—A few days since I bought three watches from you. It affords me pleasure to say that they give entire satisfaction, and are even better than you represented them to be. Have sold two of the watches at a nice profit. Please accept thanks for your fair dealing and for giving me good watches for the price you have. Yours very truly, GEO. H. ECHOLS.

MILNOR, NORTH DAKOTA.

Gents.—I received the two watches you sent me in good condition, ard am pleased to say that they are not to be excelled as time-keepers by watches costing twice the price paid. I readily sold one for what both cost, and am too well satisfied with the other to part with it even at double its cost. If in need of anything in your line in the future, I shall know just where to get fair dealing.

Yours respectfully, ALLISON M. BLYTHE,
Agent for New Home Sewing Machine.

HOLMESVILLE, OHIO.

Gents.—Youe card received, in reply will say that I cannot use one of your watches at present, but think I can get an order for a watch before long. The $12.65 watch purchased of you some time ago is a dandy, and cannot be excelled for keeping time. Case is wearing the best kind and I can recommend the watch to any person wishing to purchase a watch. Ever person that has seen the watch thinks there is something wrong with it or you could not sell them so cheap, as the same style of watch here in our jewelry stores will cost $30.00. I took the watch to one of our jewelers and he pronounced it a good watch and said it was as cheap as dirt at the money paid for it. Yours truly, J. E. MCCLELLAND.

Our Solid Gold Watch Department!

Last year was our banner year in **SOLID GOLD** watches. **We sold** more 14 karet solid gold cases than any other concern in America. This year we are trying to double last year's sales, and, in order that we may double our previous, remarkable record, **we have a great inducement to offer—IT'S THE PRICE**—*we have purchased an interest in a gold case factory* and this year we offer gold cases at the intrinsic value of the gold, with $1.62 added for making the case and the cost of engraving, ornamenting and diamond setting added. *No concern in America* pretend to meet our prices on **SOLID GOLD WATCHES.** *They can't do it*—**Fourteen (14) Karet Solid Gold, United States Mint Assay,** is the grade we handle. **Nothing but the Best**—No. 8, 10 or 12 karet—**Only U. S. Mint Assay, Full 14 Karet. THE BEST THAT'S MADE** and yet cheaper than any other house sells 10 karet. *WHY?* Because you pay for the gold, pay $1.62 for making the case, pay for engraving it, **THAT'S ALL, NOTHING MORE.**

BUY A GOLD WATCH

and you will always be satisfied. Gold filled watches are getting to be very common, nearly every one wears a gold filled watch. They are very nice if you can't afford **solid gold;** but as nice as a gold filled case can be made you can tell the difference; *a gold filled watch is nothing but a gold filled watch,* while **a solid gold watch is a solid gold watch once, always and forever.** Besides, at our prices **you can afford it.** We will sell you the finest, 14 karet solid gold watch ever made for as little money as the average dealer asks for a good gold filled watch.

AN EXTRA INDUCEMENT!

To urge you to order a 14 karet **solid gold** watch, and thus get the best, and push work at the case factory, we shall give away, **ABSOLUTELY FREE, a nice, valuable present with every solid gold watch sold.** We will during the year **SEND FREE** as presents a number of fine $100.00 organs, $100.00 top carriages, fine silverware table sets, gold, gold filled and gold plated chains, etc. *Everyone cannot* get a $100.00 present, but a certain percentage will be such valuable presents, and everyone will get some nice present. **Not until the watch is paid for** will we send the present. If cash in full accompanies the order we will send the present the same day we send the watch. If watch is sent C. O. D. subject to examination, we will send the present the day we receive the money from the express company.

YOU GET A PRESENT with every gold watch, whether paid cash in advance or C. O. D., as soon as we get the money. **We Will Sacrifice Our Profit** this year on **Gold Cases** to boom the gold case business, and enlarge the factory, by dividing our gold case profits among our customers, sending a present to everyone who buys a gold watch, the presents ranging from a nice gold plated chain up to a $100.00 parlor organ or top carriage.

YOU UNDERSTAND—We will send any watch **C. O. D. SUBJECT TO EXAMINATION.**

NEVER BEFORE ADVERTISED!

No. 6060.

We say **NEVER BEFORE ADVERTISED,** for the reason that until we purchased an interest in the gold case factory, they only made gold cases for the finest retail stores in large cities. The factory built up a reputation for the finest gold cases made and found market for them direct to the fine retail stores in New York, Philadelphia, Chicago, and other large cities where something extra fine was appreciated. They never sold to wholesale houses, catalogue houses, small or ordinary retail dealers, and not until we purchased an interest in the factory have we been able to get such goods.

BUT NOW WE OFFER YOU the finest gold cases made at a very small percentage above the intrinsic value of the gold and the actual cost of labor to make and engrave them.

THIS CASE is **14 Karet Solid Gold, U. S. Mint Assay,** and so warranted by a special certificate of guarantee and the manufacturer's registered stamp in back of case. It is stem-wind and stem-set, beautifully engraved, finished, polished and decorated by hand.

Set With a Genuine Diamond!

CASE MADE OF 14 KARET SOLID GOLD. We Doubt if one out of a hundred who receive our catalogue have ever seen a watch case such as we describe here, there are very few carried in the stocks of the largest retail stores in the country, and if they have such a case it is used as a show and advertisement, they can seldom sell one on account of **THE PRICE. Look in some fine retail store** and if you find such a case, ask the price and for the case alone, they will tell you $100 to $150. **NO WONDER THEY DON'T SELL THEM! We do different!!** We figure the intrinsic value of 45 dwts. of 14 Karet Solid Gold, a pure white and perfect one-quarter carat Genuine Diamond, add to this the actual cost to make and engrave the case, and then to this add the smallest percentage of profit possible and then offer the complete watch, diamond set case, movement and all for less money than other dealers ask for an ordinary gold case alone. **THIS WATCH CASE** is made of 14 Karat Solid Gold, and set with a Genuine Diamond weighing one-quarter of a carat. The diamonds in our diamond set cases are all carefully selected stones, perfectly cut, pure white and free from any flaws, and in setting are cut clear through the case. Ask any express agent anywhere, if he knows of our business, ask him if he does not receive more packages from us than all other watch houses combined, ask him if he ever saw a poor watch come from our house. Write to any reputable business house in this city and learn for yourself something about the magnitude of our business. NOTHING LIKE IT IN AMERICA! Prices, quality and terms no other house can match.

WHAT THE PEOPLE SAY!

BLACKSBURG, SOUTH CAROLINA.

Gents.—I ordered a watch from you. I received it and it has proven all OK. I have had the watch four months, and it is just as good as new. I want a nice ladies' watch. Please tell me whether you can or will engrave my name in any watch or not? Yours Respectfully,
M. L. GAFFNEY.

PARKDALE, ARKANSAS.

Gents.—I received the watch you shipped me. I am well pleased with it, up to date. I have showed it to several persons, and every one that sees it wants one like it. If this watch proves to be a good one I could sell lots of them in this county. I would like to become your agent for this county. Very respectfully, A. W. RAMSEY.

KALAMAZOO, MICHIGAN

Gents.—I received the watch this morning. I think the watch is a very pretty one, and if it proves as good as it looks no one can find fault with it. I took the watch to two jewelers and they said that the watch was worth about $30. I paid only $19.75 for it. If at any time I can favor you with an order I shall do so with pleasure. Respectfully yours, J. B. ALLEN.

PORT TOWNSEND, WASHINGTON.

Gents.— After carrying your gold filled watch for six months I feel it my duty to testify to its value. The appearance of the watch is the same as the day I got it and as a timepiece it far surpasses any watch I ever possessed. Will do all I can to recommend your house.
Yours truly, C. STAMMER.

VANDERBUILT, MICHIGAN.

Gents.— I received your watch on the 14th of this month and I now carry it in my pocket. I paid the express agent for it. You can add my name to your list. Your watch is a beauty if there ever was one. Yours truly, A. H. STANDARD.

GRIFFIN, GEORGIA.

Gents.— The watch received, and I am well pleased with it. It gives perfect satisfaction and I shall order another soon. I feel safe in recommending your watches and will continue to do so.
Yours very respectfully, REV. J. M. BUNN.

Sears, Roebuck & Co.

We Are Slaughtering the Price of Diamonds as we have slaughtered the price of watches. ***Diamonds*** are as good an investment as government bonds if bought at the right price. *We will redeem them* any time at ten per cent. discount. *Don't pay the retail* price for diamonds. At our prices the goods are always as good as the money. *They never wear out*, never change, always the same; but heretofore they have been sold at such unreasonable profits that few people could afford to wear them.

WE CHANGE ALL THIS, Everyone Can Wear Diamonds.

We Are Acknowledged Headquarters in this line. We import our own loose stones, buy our mountings by contract, and do our own mounting. ***No One Can Meet Our Prices! No One Can Meet Our Terms!***

☞ DON'T FORGET We send ***any diamond to anyone, anywhere,*** C. O. D., subject to examination. ***No Money in Advance.*** Examine it at the express office and if found satisfactory pay the express agent our price and express charges and it is yours; ***otherwise*** pay nothing and it will be returned at our expense.

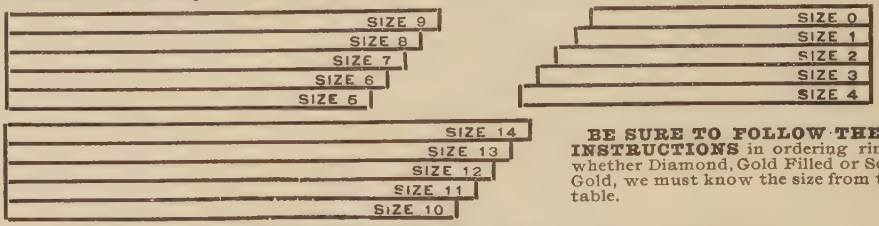
MEASURES SHOWING SIZES OF RINGS.

Take narrow slip of paper and measure around the finger, making sure that when both ends meet it will fit exactly as ring should. To get number of size, measure slip in spaces below. When ordering, always write number of size as slip is sometimes lost and order delayed until another is procured.



BE SURE TO FOLLOW THESE INSTRUCTIONS in ordering rings, whether Diamond, Gold Filled or Solid Gold, we must know the size from this table.

TESTIMONIALS.

WATCHES.

GREENSBORO, N. C., November 28th, 1893.

MESSRS. SEARS, ROEBUCK & CO.

DEAR SIRS:—I take pleasure in writing you these few lines. I would have written to you before now, but I wanted to compliment you and your watch; it is giving satisfaction and I hope to be able to send for another one some time, in short, one that is solid gold. I received all the mail that you sent me, but I was not able to comply with your offers. When you send out another prize offering send to me, that I may be among the first, that I may be in time for the prize. When I send for the next watch I want it to be solid gold through and through. I remain yours as ever,

B. G. HIGHTOWER,
North Guilmer Street. Greensboro, N. C.

SEARS, ROEBUCK & CO. ROCK BRIDGE, Ohio, December 2d, 1893.
Minneapolis, Minn.

DEAR SIRS:—The $9.85 watch sent me a few days ago, arrived in good condition. I am well pleased with my bargain. I can readily recommend your house to all wishing to buy a first-class watch. Wishing you success for your fair dealing. Yours respectfully,

G. W. LATER.

MESSRS. SEARS, ROEBUCK & CO. GREENVILLE, N. H., December 6th, 1893.
Minneapolis, Minn.

GENTLEMEN:—I received the watch, No. 10532, which you sent me. I have delayed to test its merits and find it far ahead of what I expected. Will order more in the near future.
I beg to remain, yours very truly,

J. F. RILEY.

EAST ST. LOUIS, Ill., December 20th, 1893.

GENTLEMEN:—I received the package of plated ware on the 19th, and am glad to state that the goods were not only satisfactory, but were far superior to anything I have ever seen at such a price. Thanking you I will promise to do all I can for you in the way of orders. Respectfully,

C. R. TALBOTT.

SEARS, ROEBUCK & CO., CLEVELAND, Miss., March 11, 1894.
Minneapolis, Minn.,

GENTLEMEN:—I received my watch on the 8th inst., and in reply will say that words are inadequate to express my delight and surprise. It is a "perfect little beauty," and I would not take twice the money I gave for it. You may look for another order real soon. You may use this as a "testimonial" if you feel disposed to do so. I remain, Yours with best wishes,

J. P. COUCH,
Lock Box 3. Cleveland, Miss.

No. T 21.

SEWING MACHINE HEADQUARTERS!

WE SAY HEADQUARTERS because we honestly believe we are prepared to furnish sewing machines direct to familes, *for less money*, than any other concern in existance.

We added sewing machines to our business believing the large masses were opposed to paying the enormously high prices charged by country dealers, and that they would place their orders direct if a thoroughly reliable house, with an established reputation, would offer a line of machines equal to the very best made and at a LOW PRICE.

It has been a Grand Success.

Our old customers began patronizing us from the start. Many so-called manufactures, agents, etc., (some of them unreliable) have been advertising sewing machines at various prices, but in nearly every case the question of RELIABILITY came up; people knew nothing about them. When we started **ALL THIS WAS CHANGED,** our reputation had been long established in the watch business, we were well known in nearly every city, town and hamlet in the United States, being incorporated under the laws of the State of Minnesota with a cash capital paid in full of $75,000.00, any bank or financial institution could tell of our responsibility. We refer to any commercial agency, any bank in the United States, or you can ask any express agent anywhere about us. Nearly every agent knows and can tell you of our reliability, or any stranger not feeling absolutely safe can, if he chooses, send his order and money to the Union National Bank, Minneapolis, Minn., with instructions not to turn it over to us unless they know us to be thoroughly reliable, or they can send for our big book of testimonials, thus convince the most skeptic that we are not only reliable but will in all cases carry out our every promise to the word and letter.

THAT'S WHAT PEOPLE WANT FIRST CONFIDENCE!

We believe we establish that in every case. Next, **Do You Need a Machine?** If so, we are now prepared to supply you at a great saving. We not only claim our prices lower than any other house but with our 10 year binding guarantee for the workmanship and quality of our machine, we also include a guarantee the machine shall be in every respect exactly as represented, and the price less than the same grade is sold by any other house.

WE HAVE MANY ADVANTAGES

over other houses. We do not depend on machines alone for our support, on the contrary, our sales of over 300 watches daily comprises the bulk of business; and by utilizing the one clerical force to attend to the office work of both sewing machines and watches we save the salaries of many clerks. **WE SELL FOR CASH,** no bad debts, no traveling men's salaries or big hotel bills to pay, no poor notes, no collections, no interest. Our customers pay the actual cost to manufacture with the smallest profit added consistant with a thoroughly safe, honest and reliable business.

PLAIN TALK.

How much ough I to pay for a first-class serviceable Sewing Machine, complete with all the latest attachments? Put this question to your friends, individually, and you will be surprised to learn how little they know about the actual value of Sewing Machines. The majority of them will tell you they secured theirs from an agent, hence at *exorbitant* prices.

The sale of sewing machines is conducted so expensively under the agency system that it is impossible for the purchaser to secure a good machine without paying double what he ought.

Consider the expense of maintaining an army of Officers, General Managers and Managers of lesser degree, together with a legion of Agents, Sub-Agents, Offices and Branch Offices, Canvassers, Wagons, Horses, etc., and the few sales each agent makes. This extravagant system of selling machines, canvassing from house to house, *costs more than it does to manufacture the machine itself.* All these wasteful expenses compel a price that is in most cases more than double what we ask for a Sewing Machine equally as handsome and really superior in mechanism and durability. In no other kind of business is such a false system maintained. It is a shame to those manufacturers whose Sewing Machines cannot be sold without resorting to such wasteful

methods. It is to be expected that those who profit by these devices will join in defaming us because we strike at the system which makes such plundering of purchasers possible. Agents for high-priced machines will try to make you believe all sorts of stories concerning our Machines. **Beware of them!** Do not allow their falsehoods to influence you. By taking advantage of our economical system you pay **one profit only,** viz: The manufacturers, and therefore you get them at strictly guaranteed factory cost. This is a progressive age, and you will find it a wise policy to investigate, as far as possible, every new departure. In this case you may satisfy yourself as to the truth of our statements at the cost of very little time and trouble. We invite a comparison of our Sewing Machines with others, and to make comparison before purchasing possible we will ship by freight any style of our Minnesota Sewing Machine to anyone, anywhere in the United States, *at wholesale price*, and allow all purchasers the privilege of **10 Days FREE Trial in Their Own Homes.** This is an unparalleled offer, and one which clearly demonstrates our fearless method of conducting business. Consider this privilege carefully, and avail yourself of it before paying exorbitant Agents' prices.

DEALERS AND AGENTS.

In their efforts to prevent our making sales, unprincipled dealers and agents often advise purchasers not to test our Machines. This is mistaken advice, because you take no responsibility until you examine the Machine in your own home, and if it is not as represented, you return it to us at our expense. Dealers buy from the manufacturers, and must take such machines as are sent, and they must sell them without regard to quality, and to those who are not well informed they must give the poorest and keep the best ones for more critical customers. We cannot favor one above the other, but must send *PERFECT MACHINES TO ALL.* Our Machines must speak for themselves—the agent can hide the defects of his—we must send you one so good that its superiority is apparent. It will pay you to consider carefully which system will produce the most perfect Machine and give the greatest assurance of satisfaction.

IMPROVED LOW-ARM SINGER!

These machines are made after the latest models of the Singer Mfg. Co.'s machines, and are perfect fac-similes of their machines in shape, ornamentation and appearance, with the exception of the lettering on the arm of machine, and the trade mark. All the parts are make to gauge exactly the same as the Singer Co.'s parts, and are constructed respectively of precisely the same materials. The utmost care is exercised in the selection of the metals used, and only the very best quality is purchased. Each machine is thoroughly well made and is fitted with the utmost nicety and exactness, and no machine is permitted by the inspector to go out of the shops until it has been fully tested and proved to do perfect work, and run light and without noise.

NOTE.—**Self-Threading Shuttle.** Only used in the Improved Singer Sewing Machine. A perfect STEEL SHUTTLE with delicate and perfect tension opened to allow the bobbin to be inserted without displacing any part of the shuttle; holds more thread than any other Singer machine shuttle; runs loose in shuttle with spring center and point bearings, thus insuring an even tension and all annoyance resulting from shuttle thread breaking while the machine is in motion, which is common to many machines, is entirely obviated.

The Stand is among the handsomest in design. Finely japanned. Has large drive wheel. It rests on four castors and can be easily moved. The treadle is set on anti-friction bearings that run light and never need oil, thus saving the carpet from grease and spots. THE CABINET WORK OF ALL OUR MACHINES IS OF ELEGANT OIL POLISH, BEST WALNUT OR OAK OF THE LATEST DESIGN, WITH GOTHIC COVER.

The above cut represents our No. 14, High-Arm Improved Singer Sewing Machine, which is known the world over. Our machines are made after the latest models of the Singer Mfg. Co.'s machines, and are perfect fac-similes of their machines in shape, ornamentation and appearance, with the exception of the lettering on the arm of the machine, and the trade mark. All the parts are made to gauge exactly the same as the Singer Co.'s parts, and are constructed respectively of precisely the same materials.

Each machine is thoroughly well made and is fitted with the utmost nicety and exactness, and no machine is permitted by the inspector to go out of the shops until it has been fully tested and proved to do perfect work, and run light and without noise.

During the life of the patents under which this machine was formerly made prices were kept up, and as the sewing machine is such a necessity people were compelled to buy, notwithstanding

the prices were extortionate. All sewing machine manufacturers who have operated under the protection of U. S. patents have become immensely wealthy, and the bulk of their fortunes have come from the poor sewing woman, who, in order to get easy terms, has paid seven or eight times what her machine is worth.

We are now prepared to sell our machines at prices within reach of all, being positively the **Lowest Cash Prices** made by any concern in this line.

The loose balance wheel is a very **important improvement,** and constructed so that the Bobbins can be wound without running the machine or removing the work therefrom.

Another marked improvement is the Self-threading Eyelet, Check Lever and Needle Clamp. Each machine, of whatever style, is furnished with the following equipment of tools and accessories Free of Charge:

One Foot Hemmer, One Screw Driver, One Wrench, One Oil Can and Oil, One Gauge, One Extra Throat Plate, One Extra Check Spring, One Package of Needles, Six Bobbins and One Instruction Book. *In addition to the above we furnish with each machine an EXTRA SET OF ATTACHMENTS, FREE OF CHARGE, consisting of the following:* **One Tucker, One Foot Ruffler, One Set of Plain Hemmers, 5 different widths up to 7-8 of an inch, One Binder and One Thread Cutter.**

READ THE DESCRIPTION.

The Minnesota has been manufactured in order to meet a growing demand for a machine of this kind. The Minnesota is made with great care, and has no superior in the world. The special points claimed for it are as follows : *Double Eccentric* on main shaft for operating the shuttle and feed levers, made of one piece, and so perfectly balanced that vibration is reduced to the minimum, requiring but one adjustment, no slipping of eccentrics, and therefore throwing machine out of time. Feed mechanism much lighter ; less material to be vibrated by spring ; mechanical in construction ; no knocking or " side lash " ; hence no *raw hide* to deaden sound required. Double feed, so operated that whether long or short stitch is used, the middle section of

teeth always start immediately behind the needle, insuring thereby a perfect and uniform stitch. Also so arranged that the feed does not fall until point of needle enters the goods, the benefit of which is obvious. The guard for thread controller on inside of face plate prevents injury or displacement, a frequent source of annoyance in some machines. Loose pully device, easily and quickly adjusted, relieving the shaft from friction and allowing shaft end to be neatly finished off, avoiding the unsightly "wabbling" of balance wheel which in time wears out of true. Cylinder shuttle, *self-threading*, large loose bobbin, a delicate and perfect tension; oil holes large and free. The stand is beautiful in design, light and graceful in appearance, and at the same time strong and substantial. The *belt replacer* is simple and effective, the utility of which the ladies will thoroughly appreciate. Treadle hung on ball bearings requiring no oil, hence no soiled carpets. The New Minnesota is a perfect working sewing machine in every particular, and is equal to any $65.00 machine in the market. It is finely finished, the wood being of seasoned walnut or oak, and the greatest care is exercised in the manufacture of each part. Each machine is furnished with the following equipment of tools and accessories:

One Foot Hemmer, one Screw Driver, one Wrench, one Oil Can and Oil, one Gauge, one Package of Needles, six Bobbins, and one Instruction Book. In addition to the above we furnish an extra set of attachments, consisting of the following: One Tucker, one Foot Ruffler, one Set of Plain Hemmers, five different widths up to 7-8 of an inch, one Binder, one Thread Cutter and Quilter, packed in plush-lined case.

BABY CARRIAGE DEPARTMENT.

BABY CARRIAGES AT YOUR OWN PRICE.

We say your own price for the reason we are in a position to supply you at one-half the price charged by retail dealers.

WE HANDLE THE BEST grades of goods only, and always strive to send our customers such goods that when they are received they will not only give satisfaction, but prove even better than represented.

WE WANT every carriage to advertise our house. If we sell you a carriage and you find you have saved one-half by buying from us, you will tell your neighbors, and speak a kind word for us, and thus in many cases cause the sale of at least one more carriage, and **THAT'S OUR MOTTO**—make a carriage sell a carriage.

WE WANT YOUR TRADE.

All we ask is a trial order to convince you we are in a position to furnish you more for your money than you can possibly get elsewhere.

OUR TERMS, CONDITIONS, ETC.

NOTHING COULD BE MORE LIBERAL.

WE SHIP C. O. D. **To anyone anywhere, subject to THOROUGH** examination. ☞Read, select any carriage you want, and send us your order with $2.00 as a guarantee you are ordering in good faith, and we will send the carriage to you by express C. O. D., subject to examination. You can examine it at the express office, and if found perfectly satisfactory, pay the express agent our **special advertised price,** less the $2.00 you sent us, and the carriage is yours.

THE BEST WAY Is to send cash in full with your order. Then we will always ship by freight, which is **far cheaper** than by express. The freight on one carriage, to points within 1,000 miles of Chicago is from 50 cents to $1.00; to Pacific Coast and far distant points, from $1.00 to $2.00.

YOU TAKE NO RISK, For if the carriage is not found perfectly satisfactory, you can return it at our expense, and we will refund your money.

OUR GUARANTEE. We warrant all our carriages for three years, and a binding guarantee accompanies each carriage.

COLORS. We use the leading colors to match the upholstering and parasols, and if any special color is desired please state in ordering. **WE CAN SUPPLY** Gold, Brown, Peacock, Old Gold, Mahogany, Cardinal, Red, Olive, and Old Rose.

FREE. All our carriages are nicely packed in wooden crates, and delivered at our freight or express depot. We make no charges for crating or cartage.

CHEAPEST ON EARTH.

This Carriage for $2.68.

Retails everywhere at from $6.00 to $9.00. Never before sold at wholesale by the dozen for less than $4.00. **We want your trade.** We want you to advertise our house. We want you to become a steady customer. To do this, we have got to please you, and the way to do it, is by giving you more value for your money than you can possibly get elsewhere.

READ OUR DESCRIPTION.

This Carriage is made of white reed and maple, medium size, bottom 12½ by 26 inches, oil cloth in bottom, seat only upholstered, solid bent handles, iron reach, iron brace, iron axle, four steel springs, trimmings all nicely finished.

Our Special Price, with Parasol, Silesia, unlined, with scalloped edges, **$3.42.**

$4.95 FOR A $10.00 CARRIAGE.

YOU CAN SAVE from $5.00 to $20.00 by buying a carriage from us.
VERY LITTLE TROUBLE to send us your order.

YOU CAN'T MAKE MONEY EASIER.

Don't let your retail dealer discourage you. He wants to make **$5.00 or $10.00** on a carriage, **WE DON'T.**

REASON FOR YOURSELF. The retail dealer's sales are small. **He only buys a few carriages a year, consequently pays a big price.** His sales are comparatively small, consequently his entire income for the year must be made on his few sales. **What's the result?** If you only purchase a baby carriage in a season, you contribute at least several dollars towards his year's profits.

WITH US IT'S DIFFERENT. We handle thousands of carriages annually, figuring the cost down as low as they can possibly be made. **We don't ask several dollars** profit on a carriage. We can't think of getting even $1.00 profit on a carriage. **On the contrary,** our margin of profit is figured as low as possible, consistent with **thoroughly reliable** business methods.

WHAT'S THE RESULT? When you order a carriage from us you are paying the lowest net cash cost to manufacture, with our profit added, and are buying a carriage for less money than your local dealer can possibly buy.

DO YOU BELIEVE US? If you will **stop to consider,** we sell only for cash, make no bad debts, no traveling men's expenses to pay; **stop to think** all it costs us to sell the thousands of carriages per year is but the simple cost of a few pages in this catalogue, you will readily see we stand in a position against which **NO ONE CAN COMPETE.**

The above applies to this carriage, but not more so than to any other. **Every Carriage we handle is a bargain.** We can't call any one a leader, or in fact we might say, they are all leaders. Our sales on these goods are enormous.

NO WONDER! Our prices are so far below all competitors that there is absolutely no room for comparison, no chance for doubt.

PICTURES DON'T DO JUSTICE.

We have tried to give you some idea of the general style and appearance of our carriages by small illustrations. These pictures are all engraved by hand from photographs of the carriages, but want of space compels us to make them so small that you can get but a faint idea of the artistic manner in which our carriages are constructed and finished, and the handsome appearance they make.

NOTHING COMPARES WITH THEM

at anything like the same price. If you buy a carriage from us, say this our number B 22, at $5.65, it will be so far superior in every way to your neighbor's, which they paid $12.00 or $15.00 for that you will have difficulty in convincing them that it is possible to make such a carriage for $5.65.

BUT WE CAN sell you one for one-half the price your retailer will ask you, and at from 15 to 30 per cent. less than the same carriage was ever offered by any house in America (wholesale or retail). You will find everything exactly as we have represented. Our goods will even excel our representations.

YOU WILL FIND US PROMPT.

We will acknowledge receipt of your order and money the day it is received. The carriage will be shipped the following day. You will find we use extreme care in crating, boxing and shipping our goods. Your letters will be answered promptly, courteously and in detail.

The bona fide testimonials we have spared space in this book for, will convince you of the manner in which we do business. The fact that we refer by permission to the Union National Bank of Minneapolis, any express company doing business in Minneapolis, any express company doing business in Chicago, any commercial agency, or any financial institution in the United States; the fact that we are duly authorized and incorporated under the laws of the State of Minnesota, with a cash capital of $75,000.00, and a cash surplus of nearly $100,000.00, places our responsibility, in the eyes of every one,

Beyond the Least Possible Shadow of a Doubt.

WE HAVE A GREAT VARIETY OF STYLES

Want of space prevents our showing the great variety we handle. In this catalogue we illustrate a few of the most desirable and best selling styles, carriages we have carefully selected from our entire line. We can furnish you anything in baby carriages and you will find our prices uniformly low on everything. In connection with the price, let us again say **one word in regard to Freight Charges.** We can't make this matter too plain. Some customers think the freight charges will add too much to the cost.

DON'T DECEIVE YOURSELF!

If you buy from your local retail dealer—no matter where you buy—**you must pay the freight,** as your local dealer pays the highest local freight rate on all the carriages he buys, and when he sells them he adds the freight and **his enormous profit** to the generally high price he has paid for the carriage at the factory, and **THAT IS WHAT YOU PAY.**

WE WANT as much trade in your town as we can possibly get. If we are to secure and hold your trade and the trade of your friends, we fully realize **we must make strong inducements—we must save you money—save you money on everything** you buy from us. We can't make a low price on a few things and a high price on others; everything must be a money saver. **Our price must be squeezed down to the lowest possible notch.**

TRUST US FOR THAT when you see our goods, when your neighbors see them, your retail dealers see them, they will think our prices have been squeezed, **even by Hydraulic Pressure.**

It's very hard to give you an idea of the appearance of our carriages, ranging in price from $9.00 and upwards.

They are Things of Beauty. Nothing you have ever seen at anything like the price will give you the slightest idea.

Don't stick to the ancient stereotyped theory that you must protect home trade. This is a progressive age; every man, no matter what his calling, whether farmer, laborer, mechanic or otherwise, **must be a business man** if he would succeed, and in business the key to success is **buying at the right price.**

DO YOU BUY AT THE RIGHT PRICE? If not, it's your own fault. **The opportunity is laid plainly before you.** If you have not begun, it is high time you had, and the proper time is **NOW. You may believe in reciprocity; SO DO WE;** but you may misconstrue the meaning of the word. We believe when [illegible] ur money for an article you are entitled in return for same the greatest value it is possible to give.

DO YOU GET THAT AT HOME? NO. Did you ever study the matter? The retail dealer buys his goods on time from the jobber, the jobber figures on a certain percentage for loss each year, interest on money due him from retailers, and adds all this to the price when he sells to the retail dealer. The retail dealer in making his price must figure a certain percentage for bad debts, clerk hire, rent, general expenses. On top of this comes his profit, which must necessarily be large, for his living expenses are generally big while his sales are comparatively small. Now when you patronize him with your money **you pay for all this! WHERE DOES THE RECIPROCITY COME IN?** Does this class of retailers assist you in any way? No. On the contrary, you are contributing every year to maintain this unreasonable loss, and to sustain an unreasonable expense.

We don't say there should not be retail stores, but **there are altogether too many.** You are supporting too many people. Within every radius of a few miles you will find a country village; in this village is a large number of people living, often in comparative luxury, off of the hard earnings of the farmer and laboring man. **IT'S ALL WRONG!** There is only one way to remedy it—

Don't Pay Too Much for Your Goods.

We are forcing the price of goods down everywhere. Cut off their excessive profits and you cut off their support.

Our Motto is: "LIVE AND LET LIVE," and at our **live and let live** prices we are saving the consumers throughout the United States thousands of dollars annually. We are making customers everywhere, and of customers fast friends. THESE CARRIAGES, like everything we handle, are **based upon Live and Let Live Prices.** They are the **wedges that will break the strongest combinations,** gotten together to maintain high prices. **They are the sledge-hammers** that are driving prices down from ocean to ocean.

WE DEFY combinations, trusts, associations and competition of all kinds, that would endeavor to hold up fictitious values. WE APPEAL to the 60,000,000 consumers of the United States and ask:

Do You Want the Bottom Price?

BUGGIES

AT HALF PRICE.

WE SAY HALF PRICE for the reason we sell direct to the consumer all grades of **BUGGIES, CARRIAGES, ROAD WAGONS, ROAD CARTS, WAGONS, SLEIGHS and CUTTERS** at about **one-half** the price usually charged by retail dealers.

A comparison of our prices with those of any other concern will convince you that you can buy far cheaper from us than from any other house.

IF YOU DON'T find what you want in this catalogue write for it. We can supply you with any kind or grade of vehicle. Want of space only prevents us from showing a far greater variety. We illustrate the most saleable goods in the line, and what we consider the best bargains.

OUR TERMS. Cash in full must accompany all orders. We sell for cash only which alone enables us to make such extremely low prices. **You take no risk,** for if you do not find the vehicle exactly as represented **you can return it** at our expense and we will refund your money.

HOW WE SHIP. We ship direct from the factory in Indiana or from our store rooms in Chicago, Ill., or Minneapolis, Minn., depending on where our customer is located and from which point we can secure the lowest freight rate. **WE MAKE NO CHARGE** for boxing, crating or delivering on board the cars at factory or in Chicago. **ALL THIS IS FREE.**

ABOUT THE FREIGHT. You pay the freight, but don't think it is too high, don't think you live too far away. We will secure the **LOWEST FREIGHT RATE POSSIBLE.** It will not be as much as you think.

The freight to points in Illinois, Indiana, Michigan, Wisconsin and Ohio will be on a road cart from 30 cents to $1.25, on a top buggy from 75 cents to $3.00, on a two-seated top carriage $1.25 to $4.00 To points 500 to 1,000 miles from Chicago, the freight on a road cart, $1.25 to $2.75; on a top buggy, $3.50 to $6.00; on a two-seated top carriage, $5.00 to $10.00. To greater distant points the freight will be about in proportion, **so you can well afford** to pay the freight, for you will still have your vehicle at about one-half the retail price.

OUR GUARANTEE. We issue a two years' binding guarantee with every vehicle we sell, agreeing to replace free of charge at the factory any part that may prove defective, either in material or workmanship within two years.

HOW TO ORDER. Write your orders plainly and always say to what freight depot you wish goods shipped. Order by name and number. Be sure to sign your name plainly and in full. Be sure to send the full amount of cash with your order, either by bank draft, check, money order or express.

GENERAL DESCRIPTION OF OUR VEHICLES.

We not only aim to furnish first-class work at our extremely low price, but we try to make every job so good that when you receive it you will find it even better than described and superior in every way to the goods so generally advertised. **IF WE SELL YOU ONE BUGGY** we shall expect in time to sell you more and also your neighbors. To do this we must give you goods of such quality that you will be in every way satisfied. The description will give you a general idea of the way our work is finished, but you must see it to fully appreciate it.

Wood Work.

WHEELS—We begin with wheels because we think they are the most important feature in the durability of a vehicle; our wheels are manufactured of carefully selected and thoroughly seasoned hickory, either Sarven's Patent with 16 spokes, or Banded Wood Hub, or Shell Band with 14 spokes, and every wheel guaranteed. Buggy and phaeton wheels, ¾ inch, ⅞ inch, and 1 inch tread; carriage and surrey wheels, 1 inch and 1⅛ inch tread, all with screwed rims. The regular height for buggy wheels is 42 inch front and 46 inch back; for phaeton, 36 inch front and 44 inch back; for carriages, 38 inch front and 46 inch back. Tires bolted between every spoke. (We can furnish different sizes of wheels if desired).

GEARS—Made of best hickory, thoroughly seasoned, with fine, handsome scrolls.

BODIES—Made of thoroughly seasoned lumber, ash frame, poplar panels, joints put together with glue, and panels carefully screwed and plugged; corners all mitered and strengthened by corner irons.

POLES AND SHAFTS—Very best second growth hickory, carefully and neatly finished and trimmed. All poles are furnished complete and single tree, double tree and neck yoke ready for use.

Iron Work.

TIRES—Best refined steel with round edges, and FULL BOLTED BETWEEN SPOKES.

AXLES—Doubie collar, steel fantail, Anchor Brand, best quality on all work.

BRACES—Clips, king bolts, fifth wheels, etc., all carefully finished of best Norway iron.

SPRINGS—First quality of English steel, oil tempered and fully warranted.

Painting.

The very best colors and varnishes are used on every job, well filled and rubbed out with pumice stone; bodies all black, gears black, brewster green or wine color, with fine-line striping. (Special styles of painting if desired).

Trimming.

TOPS—Four-bowed or three-bowed, (as desired). No. 1 leather used in quarters and back stays; roof, best heavy rubber drill; back curtains, rubber drill lined with cloth, side curtains, rubber flock; steel bow sockets and wrought iron joints and top props; cloth head lining.

WE USE THE CELEBRATE BREWSTER PATENT SILVER FASTENINGS on all our tops INSTEAD of THE OLD-FASHIONED BUCKLES. We can furnish full leather tops with leather back curtain when desired, on buggies at $5 extra, and on two-seated vehicles at $9 extra. We, however, never advise our customers to go to this extra expense which is unnecessary, as the superior quality of our regular style tops look as well and are fully as durable.

CUSHIONS—Best No. 1 trimming leather, either black or fancy is used, unless cloth is especially ordered, in which case we use green English wood-dyed broadcloth. All top vehicles are furnished with side and back curtains.

CARPETS—TOE CARPETS in all vehicles. Full leather dash.

BOOTS—Each buggy furnished with Patent Boot for buggy body bock of seat.

☞We also furnish a special grade imitation leather top at a special price.

NOTE.—We take pleasure in announcing to our customers that we will offer the most complete line of suits, from the lowest (well made) to the best grade in ready made clothing. All made from the best standard materials, and are absolutely correct in style, shape and finish. A great many people who are not thoroughly posted on clothing imagine that if a suit is not all wool it will not

wear well. Such was the case years ago, but owing to the improved machinery and skilled workmen of the present time, we are able to manufacture some of the finest grades which have a fine cotton warp in the back, which adds weight, strength and durability and cheapens the cost of production, while the face of the fabric is strictly all wool or sometimes silk mixed; will wear equally as well as any all wool suit. We never misrepresent our clothing, but late in the season we are sometimes obliged to substitute, using our best judgment, always to your advantage.

A letter from a prominent member of the Minnesota Legislature.

E. T. CHAMPLIN, Speaker. P. J. SMALLEY, Chief Clerk.

STATE OF MINNESOTA

HOUSE OF REPRESENTATIVES.

Thirty-seventh Session. ST. PAUL, MINN., March 4, 1892,

SEARS, ROEBUCK & CO.,

Dear Sirs: My personal acquaintance with you, as also with nearly all of your large corps of assistants, renders it an absolute pleasure for me to refer to your house and your mode of doing business in the very warmest of terms. Having, at various times, had occasion to examine your watches and get prices on them, and having closely observed your manner of doing business, I can only account for your patrons getting so much for their money by the fact that you purchase in such large quantities. Any one favoring you with an order may rely upon getting *full value*, in fact, *a bargain.*

Very respectfully,

G. E. MCALLISTER,

Mem. Minn. Legislature, 31st Dist.

A clinching argument from Iowa. Thousands write the same way.

COAL CREEK, Iowa, February 19, 1892.

SEARS, ROEBUCK & CO., Minneapolis.

Dear Sir: The watch sent me came in due time, and I feel it my duty to write you. To say the least, "it is a beauty." It has now been running two weeks in my hands, and I find it a *perfect* timekeeper. By comparing with one I have been carrying for 14 years and keeps correct time, it has not varied one-half minute. I had our jeweler examine it and he pronounces it O. K. I am entirely satisfied with it and wonder how you can sell such a watch for the price. Could I get another one at the same price?

Truly Yours, A. COOPER.

A letter from the Bailiff of the Supreme Court of the State of California.

SAN FRANCISCO, November 11, 1892.

SEARS, ROEBUCK & CO., Minneapolis, Minn.

Dear Sir: Yours of November 4th at hand. I am not in need of watch of any description at present, but you can say over my signature the watch forwarded to my address two months ago has given satisfaction beyond my expectation. I am satisfied it is of better value than same could be had, on this coast, for 100 per cent more money. I cheerfully recommend your house for fair and honest dealing.

Respectfully yours,

EZRA WASHBURN,

Bailiff Supreme Court, State of California.

18. The swinging fall-board never sticks at side; always runs perfect and smooth.
19. Highest grades of felt are used.
20. Highest grades of specially tanned leather are used.

They are the *best* violin we have ever quoted, regardless of price. We guarantee *perfect* satisfaction and will refund money in any case if not perfectly satisfactory. Each, **$25.00**.

N. B. When testing a violin be sure and tune it to "concert pitch." This can be done by using a tuning pipe or fork. You will then get full strength and volume of the tone. Violins are often condemned simply because they are tuned too low.

MUSICAL GOODS DEPARTMENT.

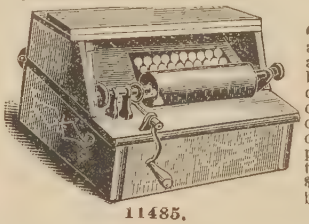
Roller Organs.

The roller organs are new and very popular mechanical musical instruments, and our prices are so low that our sales are already very large. The music is produced from reeds (regular organ size) 20 in number, which are perfectly tuned and covered with steel valves. The latter are operated by the music roller which is supplied with pins similar to those on an ordinary music box. The roller is made to revolve with gearing, which also drives the bellows. All the working parts are made of solid metal, easily accessible, and on the whole are well made and durable. They have a tone of good volume. Any child can play them, and we can furnish all styles of music.



11485.

11485, The Gem roller organ as described above, imitation black walnut case, length 16 inches, width, 14 inches, height, 9 inches. Price complete, including three rollers, $4.50. Weight, boxed, 15 pounds.

We can furnish extra rollers for above at 23c. each; extra by mail, 7c. Each roller plays one tune. Music lists furnished on application.

BAND INSTRUMENTS.

The German Piston Valve Instruments are made expressly for us by a reliable manufacturer in Germany, and we can recommend them as being equal to any German Piston line on the market. We have also taken the exclusive agency for the celebrated French Piston Valve Instruments manufactured by Jules DeVere & Co., of Paris, which are now being largely used by French military bands. While we do not claim these instruments to be "the best in the world," we can safely say they are equal to the better grades that other dealers are selling at from 20 to 50 per cent. higher than our prices. The fact that we buy direct from manufacturers, and that we are always willing to give our customers all benefits possible, enables us to make prices lower than ever offered before.

On orders of 5 or more band instruments we will be pleased to quote special prices on applicatson.

Gun and Sporting Goods DEPARTMENT.

Limited space prevents our illustrating all the various Guns, Rifles, Revolvers, etc., that are made. We have endeavored to select the most desirable goods—those which offer the best value for the money, and such goods as we can furnish you for *less money* than you can possibly buy elsewhere.

☞ **WE HANDLE EVERYTHING** in the Sporting Goods line, including all the standard makes of American and imported hammer and hammerless shot guns, rifles, revolvers, gun implements, ammunition, leather and canvass goods, sportsmen's clothing, rubber goods, coats, decoys, tents and awnings, indian clubs, boxing gloves, etc., etc. **If you don't find what you want illustrated, *WRITE FOR IT*, we can supply you** with anything and everything in this line at the **lowest wholesale** prices.

☞ **ABOUT PRICES.** By a close comparison of our prices with those of other houses, you will find you can save money, yes, from 20% to 70% on any article in this line. Our goods are purchased in large quantities **for cash,** direct from American and European manufacturers, and we have based our selling price on the closest basis of profit consistent with first class goods. In calculating our profit, we have not had to figure any expense for **traveling salesmen, bad debts,** extensive newspaper advertising, etc., but have simply added to the actual net cost of the goods a close conservative profit for handling.

TERMS. We honestly believe our terms are far more liberal than any other concern, in fact there is no concern that will ship goods to anyone anywhere **on our terms,** but we know **our goods are the best, our prices lower** than others and that they are ure to please, consequently we are not afraid to ship to anyone anywhere on the most liberal terms.

DESCRIPTION.—Best gun made for ducks, chickens or partridges, no stronger shooting gun made, has wonderful penetration and makes a perfect patern. Operated by sliding fore arm below the barrel. When the hammer is down the backward and forward motion of this slide unlocks and opens the breech lock, ejects the cartridge or fired shell and replaces it with a fresh cartridge. The construction of the arm is such that the hammer cannot fall, or the firing pin strike the cartridge until the breech lock is in place and locked fast, while the hammer stands at the full cock notch, the gun is locked against opening. In this position the firing pin must be pushed forward to open the gun; when the hammer stands at half-cock, the gun is locked both against opening and pulling the trigger.

To load the magazine turn the gun with the guard upwards, lay the cartridge on the underside of the carrier and push it into the magazine.

Finest quality, patent rolled steel barrels, fine selected walnut stock, pistol grip; length of stock 13 inches, drop of stock 2¾ inches, weight 7¼lbs, shoots six times, 12 guage only, 30 or 32 inch barrel. **Our Special Price $16.88.**

DESCRIPTION.

NO. 61.
PRICE, EACH, $10.13.

Although this rifle is a recent production it has become almost as famous as the "Winchester Repeater" and stands in the "front rank" with the very best target rifles of this and other countries. **THIS GUN** has the old Sharp's breech block and lever and is as safe and solid as a Sharps. The firing pin is automatically withdrawn at the first opening movement of the gun and held back until the gun is closed. The hammer is centrally hung, but drops down with the breech block when the gun is opened and is cocked by the closing movement. It can also be cocked by hand. This arrangement allows the barrel to be wiped and examined from the breech. In our line everything has been done to make the gun pleasing to the eye. All of these guns have case hardened lock plates and dark walnut stock, other styles and caliber made to order.

EVERY RIFLE WARRANTED perfect and accurate. These rifles are not made with double trigger. The set locks are adjustable by a little screw in rear of trigger and can be set to pull as desired or not used at all. Pushing the trigger forward places it in the "hair pull" notch, same as working a double trigger. All rifles have sporting rear sights.

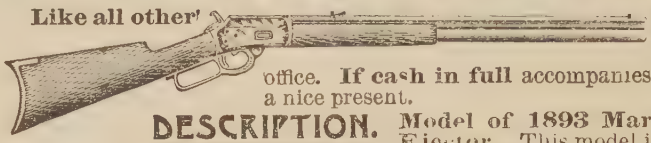
MARLIN MAGAZINE RIFLES.



Like all other guns, we send them C.O. D. to anyone on receipt of $3.00, balance to be paid at express office. **If cash in full accompanies your order, we send free** a nice present.

DESCRIPTION. Model of 1893 Marlin Safety Rifle. Side Ejector. This model is similar in principle to the 1889 model, and is made in response to the many demands for a rifle in 32-40 and 38-55 calibers. It is the only repeater on the market using these cartridges. The Marlin Fire Arms Co. were the originators of these cartridges, and for years made their finest Ballard target rifles to use them. These rifles are to have exactly the same barrels as were used in the famous Ballards. For deer or similar game, we recommend this model above any in the market. The standard length of barrel will be 26 inches, and a rifle with octagon barrel of this length will weigh about 7¾ pounds. This weight we believe will be found about right for hunting purposes. All rifles of this model will have case hardened frames. Ejects the shell at the side of receiver.

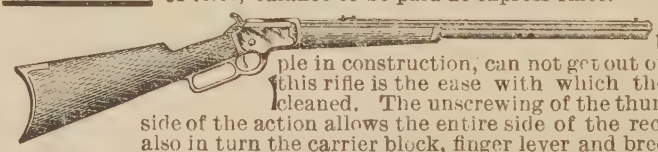
Marlin Repeating Rifle. Model of 1891.

TERMS. The same: C. O. D. to anyone anywhere subject to examination on receipt of $3.00, balance to be paid at express office.



DESCRIPTION.—No better Rifle made, very simple in construction, can not get out of order. A novel feature of this rifle is the ease with which the lock mechanism can be cleaned. The unscrewing of the thumb screw on the right hand-side of the action allows the entire side of the receiver to be removed, and also in turn the carrier block, finger lever and breech bolt. From the breech bolt may be taken the firing pin and extractor; all this can be done without any tools whatever, and with the lever in any position. This allows the action to be **THOROUGHLY CLEANED WITHOUT TROUBLE OR TOOLS,** and allows the barrel to be wiped out from the breech, which is very desirable in a small bored gun, and, if the action becomes clogged, one minute is time sufficient to open the gun and remove the obstruction. **IMPORTANT.** IN THE 22 CALIBER RIFLE, without adjustment, may be used the following rim fire cartridges, 22 caliber short, 22 caliber long, 22 long rifle, 22 long shot: **READ.** The **32 caliber** takes rim or central fire cartridges in the same rifle by changing the firing pin:

No. 121. OUR SPECIAL PRICE FOR 32 CALIBER, 24 inch barrel: Number shots, short rim or central fire, **18;** number shots, long rim or central fire, **15;** weight, 6½ to 6¾ pounds. Round barrel..... $12 15

256.

256 Full chokes made to spread MORE than cylinders. SHOT SPREADERS do it. A FULL CHOKE makes a circle of about 12 inches at 15 yards. Shot spreaders make the same gun scatter from 24 to 30 inches. No use of carrying two sets of barrels on a hunting trip. They are made of pasteboard, and pass loosely through the choke. Very successful in the bushes where shooting is done at short range. Just right for quail, woodcock, partridge and rabbits. Do not mangle the game at close quarters. No trouble to load them.

12 gauge and 10 gauge. To load: In a 2⅝ inch shell use 2¾ drs. powder; 1 B. edge and 1 card wad on powder. Drop the spreader down onto the powder wads and then pour in 1⅛ ounces shot. 1⅛ ounce fills the spreader and a little over. Lay on an ordinary card wad and turn over the shell. If your shell is more than 2⅝ inches long use any load of powder and wads you have room for. Price, per hundred **50c.** Box of fifty **25c.**

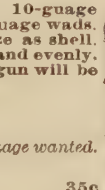
American Wood Powder for Shot Guns only. It Must Not be used in Rifles.



Wood powder does not weigh as much as black powder, bulk for bulk. A 1-lb. can weighs about 8 ounces. Recoil much lighter than when using black powders, and little or no smoke.

300 10 and 12 guage, trap grade. Very quick and streng. Pound can (bulk) 65c
6¼ pound can (bulk) $3.75

Schultze Powder.

These powders are made for first-class guns.

301 Schultz Powders for shot-guns, very little smoke.

1-pound (bulk) cans 65c
10-pound (bulk) drums $6.50

Follow directions on can for loading.

E. C. Powder.

302 E. C. Shot Gun Powder, little or no smoke. It is becoming more popular every year.

1-pound (bulk) cans 70c
10-pound (bulk) per can $6.50

Great care must be taken in loading these powders to obtain the best results. Directions for use on each can.

Wood, S. S. Schultz, or E. C. Powder can go by express or freight, as it will not explode unless confined. The great advantage of Wood, Schultz, S. S. and E. C. powders over common powder is the fact that there is much less recoil and no smoke to prevent seeing game or target for second shot.

The New Grade. (S. S.) Smokeless Powder.

303 The New Smokeless (S. S.) Shot Gun Powder; does not weigh as much bulk for bulk as black powder.

1-pound can (bulk) price 65c
10-pound cans (bulk) $6.00

The superiority of the (S. S.) powder consists in its high velocity, long range, reduced recoil, reduced smoke, reduced fouling and more regular patterns. (S. S.) is the highest development in "Nitro" compounds. In consequence of the absence of "jar," and the reduced recoil it is the most agreeable of powders to shoot.
